

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 14-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 14, which include a system for examining the eye by in vivo tomography having a tomography device including a Michelson interferometer producing a full field optical coherence tomography OCT set up and arranged downstream of the interferometer capable of carrying out without synchronous modulation or detection according to OCT principle (Note: claim 14 was allowed previous office action 2/19/2008).
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
